News Update February 4, 2010

Unifi announced improved quarterly results showing increased sales and earnings.

A brief report: <http://triad.bizjournals.com/triad/stories/2010/02/01/daily71.html>

The figures behind the report: <http://phx.corporate-ir.net/External.File?item=UGFyZW50SUQ9MzY3NTA1fENoaWxkSUQ9MzYyOTE3fFR5cGU9MQ==&t=1>

AKC Note: It is good to be able to report this positive news, certainly we saw in the calendar 4th quarter of 2009 much improved demand across a wide range of end uses for DTY, despite upward raw material pressures. Q1 2010 is looking encouraging also – though raw material increases keep testing the industry.
